EDUCATION

Kansas State University

August 2023 – May 2027 (expected)

B.S. in Mathematics, B.S. in Statistics and Data Science

Manhattan, KS

- GPA: 4.00/4.00
- University Honors Program
- Math Department Acting Ambassador, Math Club Officer

RESEARCH

Fractional Sobolev Spaces on Subsets of the Euclidean space

February 2026 – Present

Kansas State University

Manhattan, KS

- Mentored by Dr. Lizaveta Ihnatsyeva, the goal of the proposed project is to study possible definitions of fractional Sobolev spaces on closed subsets of the Euclidean space, in particular, functions defined on lower-dimensional Ahlfors-regular sets
- The results for this project will constitute my undergraduate thesis
- Supported by the Arts & Sciences Undergraduate Research Scholarship and the Department of Mathematics I-Center Undergraduate Scholarship

WORK

Grading

August 2025 – Present

Kansas State University Department of Mathematics

Manhattan, KS

- Worked closely with professors to grade upper-division undergraduate courses
- Graded courses: Introduction to Modern Algebra, Introduction to Algebraic Systems, Elementary Differential Equations, Discrete Mathematics, Foundations of Analysis, Introduction to Linear Algebra, and Introduction to Number Theory

Tutoring

May 2024 – Present

Private Tutoring

Manhattan, KS

- Tutored students one-on-one in both online and in-person settings
- Taught various undergraduate-level subjects in mathematics and statistics by collaborating with students to reach conceptual understanding

Summer Undergraduate Mathematics and Statistics Accelerator

June 2024 – August 2024

Institute for Mathematical and Statistical Innovation, University of Chicago

Chicago, IL

- Intensive eight-week mathematics and statistics program hosted by IMSI at the University of Chicago designed to prepare students for the rigors of graduate school
- Topics covered were abstract linear algebra, probability theory, real analysis, and linear regression
- NSF supported program

ADDITIONAL EXPERIENCES

Putnam/KCMC Problem Solving Seminar

August 2025 – Present

Kansas State University Math Department

Manhattan, KS

- Regular attendee of the problem solving seminar designed to prepare students for Putnam Exam and Kansas Collegiate Mathematics Competition
- Worked with faculty and students to find and provide solutions to various competition-level problems

Open House Ambassador

Spring 2026

Kansas State University Math Department

Manhattan, KS

- Assisted with setup and operation of the K-State Open House for the mathematics department
- Advocated for the department to prospective students and university faculty

Departmental Ambassador

Fall 2025

Kansas State University Math Department

Manhattan, KS

- Helped welcome new undergraduate and graduate students to K-State math department

- Assisted a graduate teaching seminar by working as a mock student

Directed Reading Project – Quaternions and Topology

Kansas State University

Fall 2024
Manhattan, KS

- Mentored by graduate student Jesse Osnes studying quaternions from a topological approach
- Studied introductory topological concepts then studied spin geometry, quaternion manifolds, and the use cases of quaternions in computer graphics

Directed Reading Project – Mathematical Modeling

Kansas State University

Fall 2023
Manhattan, KS

- Mentored by Dr. Garrett Nelson studying naive to advanced tools used in time-series modeling
- Used R to implement and evaluate the efficacy of various models

RECOGNITION & AWARDS

University Scholar Award, <i>K-State</i>	2023 – 2027
Arts & Sciences Undergraduate Research Scholarship, <i>K-State</i>	2026
Sarah G. Sitz Math Scholarship, <i>K-State Department of Mathematics</i>	2026
Leonard E. Fuller Scholarship, <i>K-State Department of Mathematics</i>	2024, 2025
I-Center Undergraduate Scholar Award, <i>K-State Department of Mathematics</i>	2026
Putnam Exam Award, <i>2nd best scorer at K-State</i>	2023
Putnam Exam Award, <i>1st best scorer at K-State</i>	2024, 2025
2nd Place Parker Mathematical Competition, <i>K-State Department of Mathematics</i>	2024, 2025
3rd Place Kansas Collegiate Mathematics Competition, <i>MAA</i>	2026
Ronald and Rae Iman Scholarship in Statistics, <i>K-State Department of Statistics</i>	2024
Ray and Carolyn Waller Statistics Scholarship, <i>K-State Department of Statistics</i>	2025
Holly C. and E. Beth Fryer Statistics Scholarship, <i>K-State Department of Statistics</i>	2026
College of Arts and Sciences Scholarship, <i>K-State</i>	2023
Leo and Louise Schlicher Best Scholarship, <i>K-State</i>	2023
The Irvin R. Ricklefs Memorial Scholarship, <i>K-State</i>	2023
K-State Semester Honors ($\times 7$), <i>K-State</i>	2023 – Present
Passed Society of Actuaries Exam FM, <i>SOA</i>	April 2025

COURSEWORK

MATH 350 – <i>Mathematical Scholars Calculus III – Grade: A</i>	Fall 2023
MATH 499B – <i>Putnam Seminar – Grade: A</i>	Fall 2023
MATH 351 – <i>Mathematical Scholars Calculus IV – Grade: A</i>	Spring 2024
MATH 512 – <i>Introduction to Modern Algebra – Grade: A</i>	Fall 2024
MATH 500 – <i>Mathematical Theory of Interest – Grade: A</i>	Fall 2024
STAT 610 – <i>Introduction to Mathematical Statistics I – Grade: A</i>	Fall 2024
STAT 611 – <i>Introduction to Mathematical Statistics II – Grade: A</i>	Spring 2025
MATH 560 – <i>Introduction to Topology – Grade: A</i>	Spring 2025
MATH 510 – <i>Discrete Mathematics – Grade: A</i>	Spring 2025
MATH 721 – <i>Introduction to Real Analysis – Grade: A</i>	Fall 2025
MATH 723 – <i>Complex Functions – Grade: A</i>	Spring 2026
MATH 882 – <i>Differential Geometry – Grade: A</i>	Spring 2026
STAT 770 – <i>Theory of Statistics</i>	Fall 2026
MATH 730 – <i>Abstract Algebra I</i>	Fall 2026
MATH 770 – <i>Introduction to Topology/Geometry I</i>	Fall 2026
MATH 821 – <i>Real Analysis</i>	Fall 2026
MATH 731 – <i>Abstract Algebra II</i>	Spring 2027
MATH 771 – <i>Introduction to Topology/Geometry II</i>	Spring 2027

TECHNICAL SKILLS

Languages: Python, SQL, R, SAS
Software: L^AT_EX, Microsoft 365
