EDUCATION

Kansas State University

August 2023 – May 2027 (expected)

B.S. in Mathematics, B.S. in Statistics and Data Science

Manhattan, KS

- GPA: 4.00/4.00
- University Honors Program

RESEARCH

Fractional Sobolev Spaces on Subsets of the Euclidean space

February 2026 – Present

Kansas State University

Manhattan, KS

- Mentored by Dr. Lizaveta Ihnatsyeva, the goal of the proposed project is to study possible definitions of fractional Sobolev spaces on closed subsets of the Euclidean space, in particular, functions defined on lower-dimensional Ahlfors-regular sets
- The results for this project will constitute my undergraduate thesis
- Supported by the Arts & Sciences Undergraduate Research Scholarship and the Department of Mathematics I-Center Undergraduate Scholarship

WORK

Grading

August 2025 – Present

Kansas State University Department of Mathematics

Manhattan, KS

- Worked closely with professors to grade upper-division undergraduate courses
- Graded courses: Introduction to Modern Algebra, Introduction to Algebraic Systems, Elementary Differential Equations, Discrete Mathematics, Foundations of Analysis, Introduction to Linear Algebra, and Introduction to Number Theory

Tutoring

May 2024 – Present

Private Tutoring

Manhattan, KS

- Tutored students one-on-one in both online and in-person settings
- Taught various undergraduate-level subjects in mathematics and statistics by collaborating with students to reach conceptual understanding

Summer Undergraduate Mathematics and Statistics Accelerator

June 2024 – August 2024

Institute for Mathematical and Statistical Innovation, University of Chicago

Chicago, IL

- Intensive eight-week mathematics and statistics program hosted by IMSI at the University of Chicago designed to prepare students for the rigors of graduate school
- Topics covered were abstract linear algebra, probability theory, real analysis, and linear regression
- NSF supported program

ADDITIONAL EXPERIENCES

Function Theory Seminar Talk

September 2026

Kansas State University Math Department

Manhattan, KS

- Gave a talk about the Hardy-Littlewood maximal function in the doubling metric measure space setting
- Proved many of the fundamental results and discussed the many applications of this function in analysis

Putnam/KCMC Problem Solving Seminar

August 2025 – Present

Kansas State University Math Department

Manhattan, KS

- Regular attendee of the problem solving seminar designed to prepare students for Putnam Exam and Kansas Collegiate Mathematics Competition
- Worked with faculty and students to find and provide solutions to various competition-level problems

Open House Ambassador

Spring 2026

Kansas State University Math Department

Manhattan, KS

- Assisted with setup and operation of the K-State Open House for the mathematics department
- Advocated for the department to prospective students and university faculty

Departmental Ambassador

Fall 2025

Kansas State University Math Department

Manhattan, KS

- Helped welcome new undergraduate and graduate students to K-State math department
- Assisted a graduate teaching seminar by working as a mock student

Directed Reading Project – Quaternions and Topology

Fall 2024

Kansas State University

Manhattan, KS

- Mentored by graduate student Jesse Osnes studying quaternions from a topological approach
- Studied introductory topological concepts then studied spin geometry, quaternion manifolds, and the use cases of quaternions in computer graphics

Directed Reading Project – Mathematical Modeling

Fall 2023

Kansas State University

Manhattan, KS

- Mentored by Dr. Garrett Nelson studying naive to advanced tools used in time-series modeling
- Used R to implement and evaluate the efficacy of various models

RECOGNITION & AWARDS

University Scholar Award, K-State	2023 – 2027
Arts & Sciences Undergraduate Research Scholarship, K-State	2026
Sarah G. Sitz Math Scholarship, K-State Department of Mathematics	2026
Leonard E. Fuller Scholarship, K-State Department of Mathematics	2024, 2025
I-Center Undergraduate Scholar Award, K-State Department of Mathematics	2026
Putnam Exam Award, 2nd best scorer at K-State	2023
Putnam Exam Award, 1st best scorer at K-State	2024, 2025
2nd Place Parker Mathematical Competition, K-State Department of Mathematics	2024, 2025
3rd Place Kansas Collegiate Mathematics Competition, MAA	2026
Ronald and Rae Iman Scholarship in Statistics, K-State Department of Statistics	2024
Ray and Carolyn Waller Statistics Scholarship, K-State Department of Statistics	2025
Holly C. and E. Beth Fryer Statistics Scholarship, K-State Department of Statistics	2026
College of Arts and Sciences Scholarship, K-State	2023
Leo and Louise Schlicher Best Scholarship, K-State	2023
The Irvin R. Ricklefs Memorial Scholarship, K-State	2023
K-State Semester Honors ($\times 7$), K-State	2023 – Present
Passed Society of Actuaries Exam FM, SOA	April 2025

ADVANCED COURSEWORK

MATH 512 – <i>Introduction to Modern Algebra – Grade: A</i>	Fall 2024
STAT 610 – <i>Introduction to Mathematical Statistics I – Grade: A</i>	Fall 2024
STAT 611 – <i>Introduction to Mathematical Statistics II – Grade: A</i>	Spring 2025
MATH 560 – <i>Introduction to Topology – Grade: A</i>	Spring 2025
MATH 510 – <i>Discrete Mathematics – Grade: A</i>	Spring 2025
MATH 721 – <i>Introduction to Real Analysis – Grade: A</i>	Fall 2025
MATH 723 – <i>Complex Functions – Grade: A</i>	Spring 2026
MATH 882 – <i>Differential Geometry – Grade: A</i>	Spring 2026
STAT 770 – <i>Theory of Statistics</i>	Fall 2026
MATH 770 – <i>Introduction to Topology/Geometry I</i>	Fall 2026
MATH 821 – <i>Real Analysis</i>	Fall 2026
MATH 825 – <i>Complex Analysis</i>	Fall 2026
MATH 731 – <i>Abstract Algebra II</i>	Spring 2027
MATH 771 – <i>Introduction to Topology/Geometry II</i>	Spring 2027

TECHNICAL SKILLS

Languages: Python, SQL, R, SAS

Software: L^AT_EX, Microsoft 365
